

Découper des
formes simples et
complexes

Savoir découper est une compétence bien utile dans la vie de tous les jours, et surtout lorsqu'on est élève.
Pour cela, il est indispensable d'avoir de bon ciseaux et adaptés à chacun :

- Des ciseaux de gaucher pour les gaucher,

Pour certains enfants, il peut être intéressant de leur proposer des ciseaux adaptés :

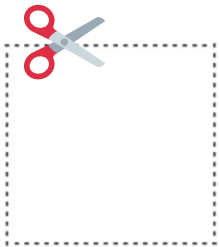

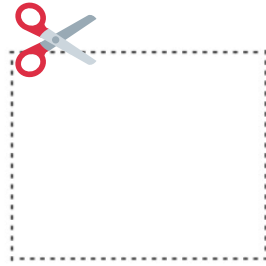

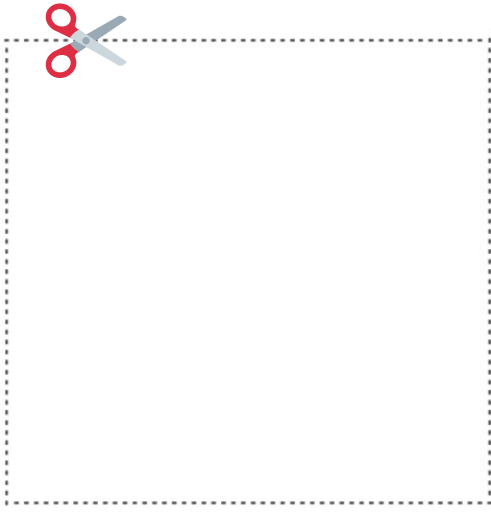

- Des ciseaux à ressort en plastique par exemple qui permettent de faire une économie de geste : il suffit de presser pour découper et les ciseaux s'ouvrent à nouveau automatiquement.
- Des ciseaux munis d'une grande boucle afin de pouvoir y placer un doigt supplémentaire pour pouvoir l'ouvrir et le fermer plus facilement et avoir plus de force.
- Des ciseaux avec 2 grandes boucles et ressort.

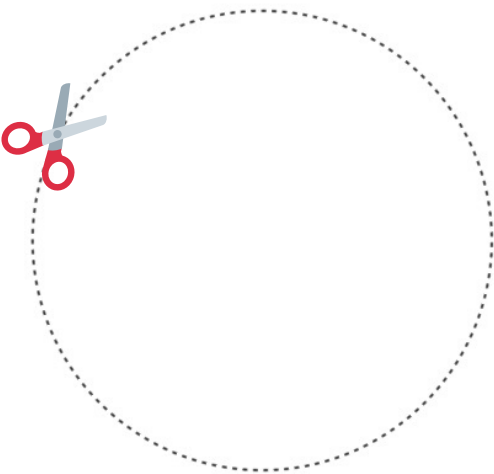

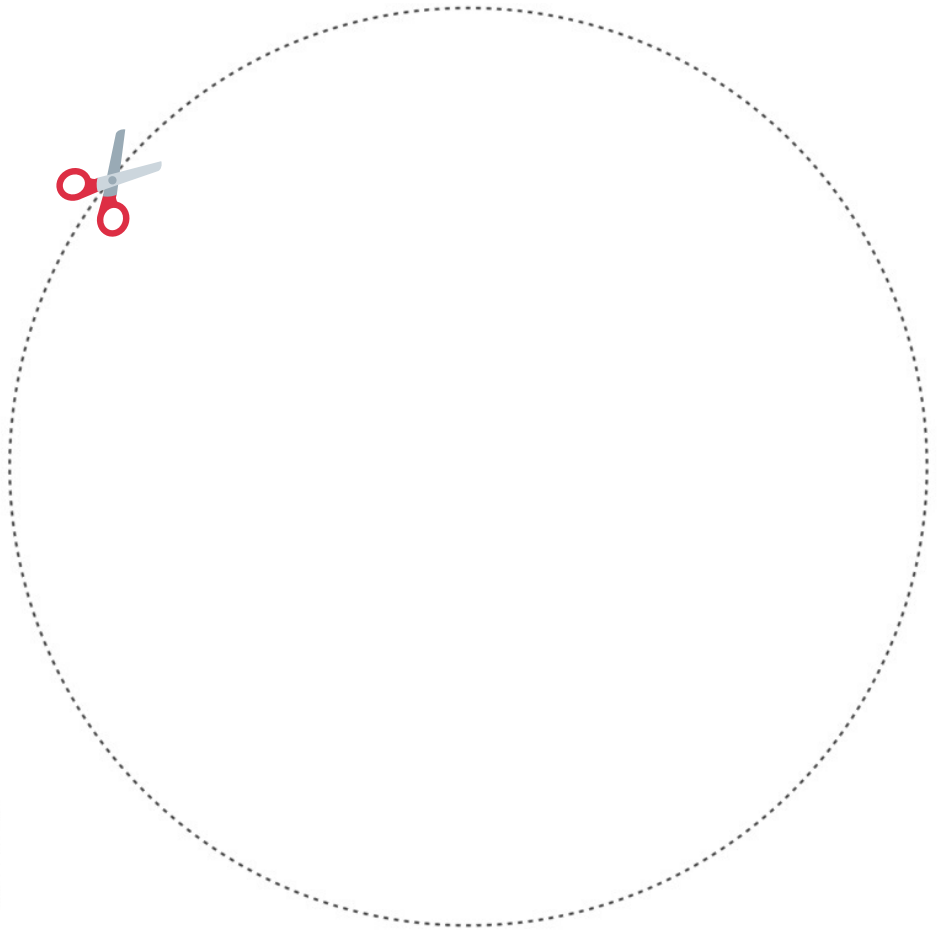

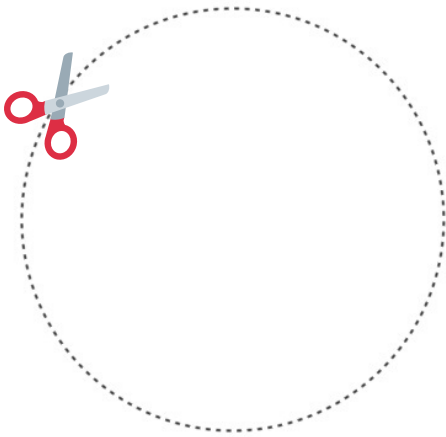

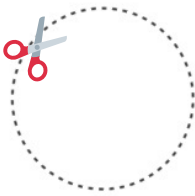

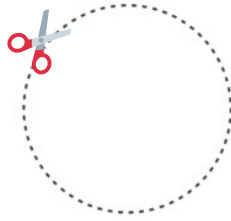

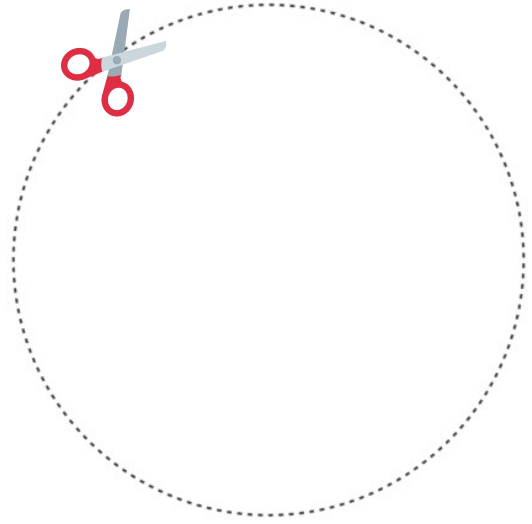

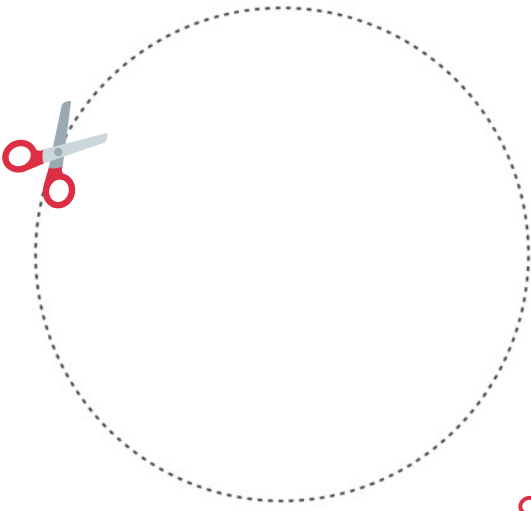

Vous pourrez en trouver par exemple chez Hoptoys ou Wesco.

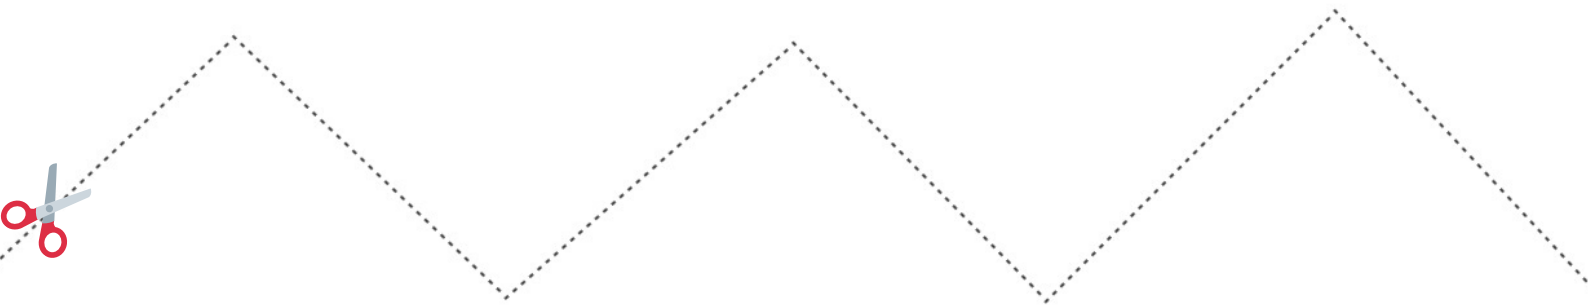

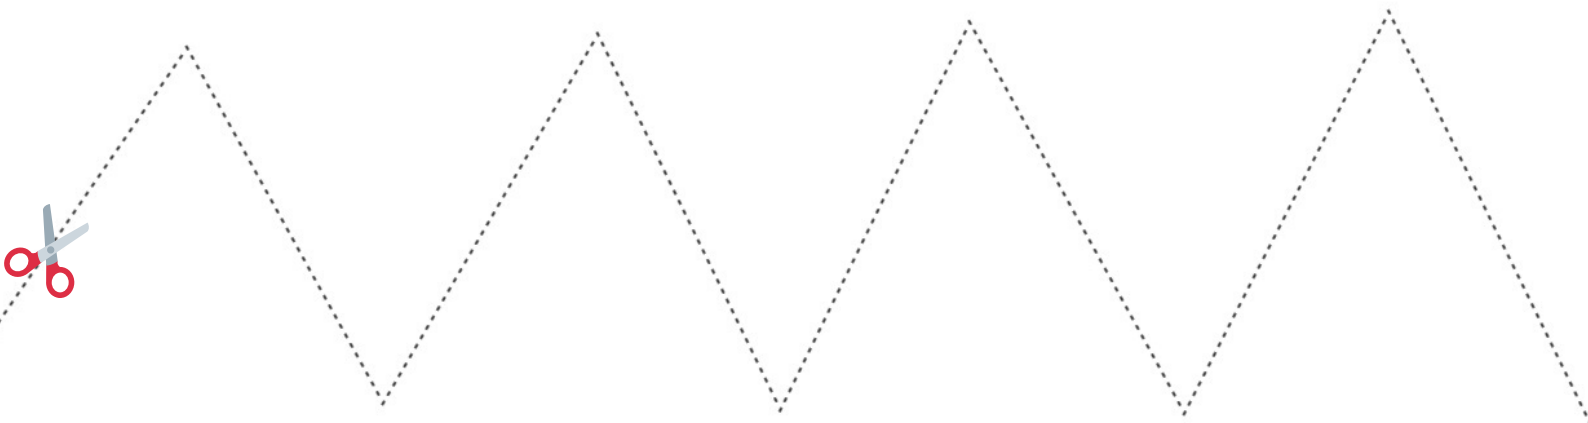

Impimez les pages suivantes, vous y trouverez des figures géométriques, des lignes et des motifs et illustrations de plus en plus complexes à découper pour s'entraîner.

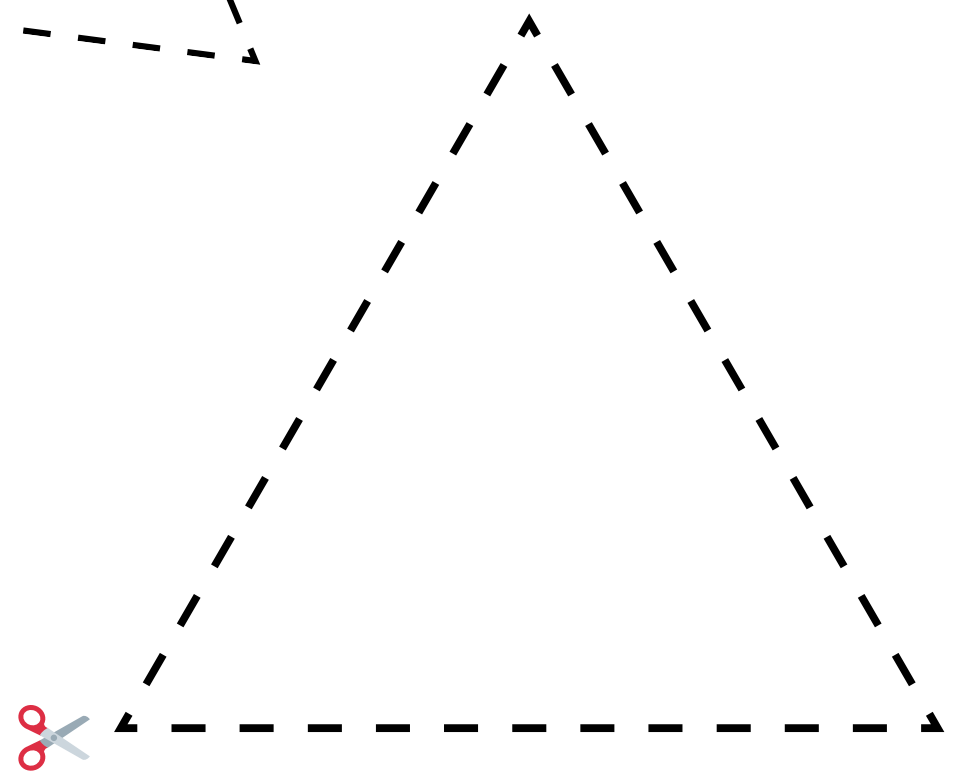

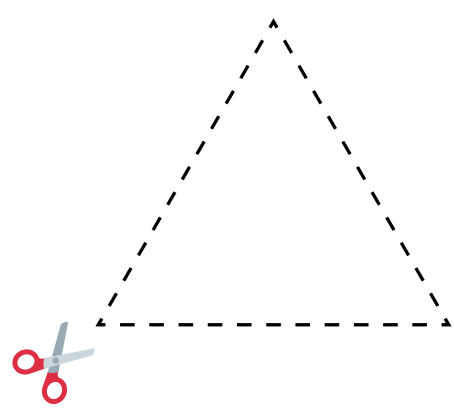

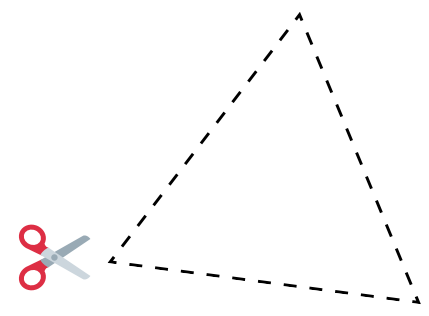

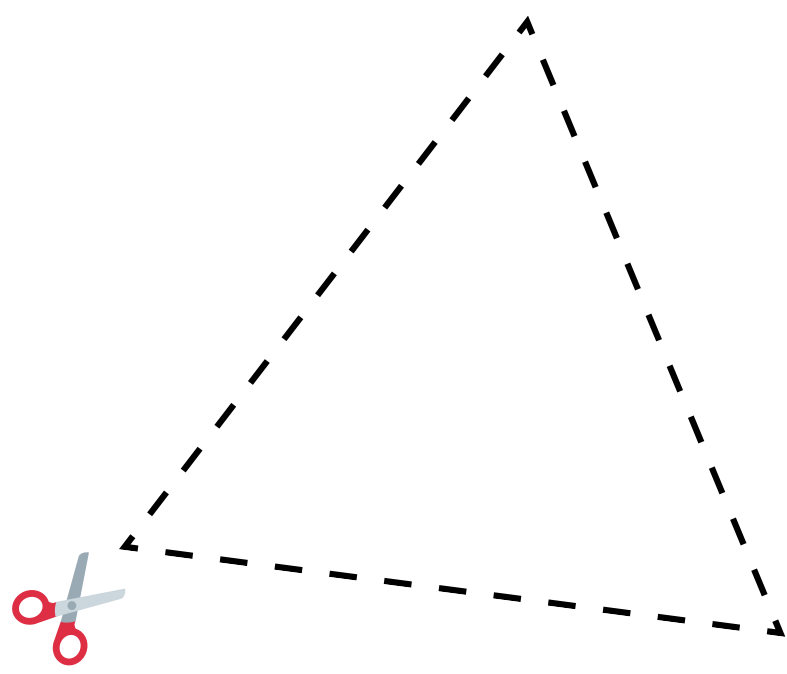

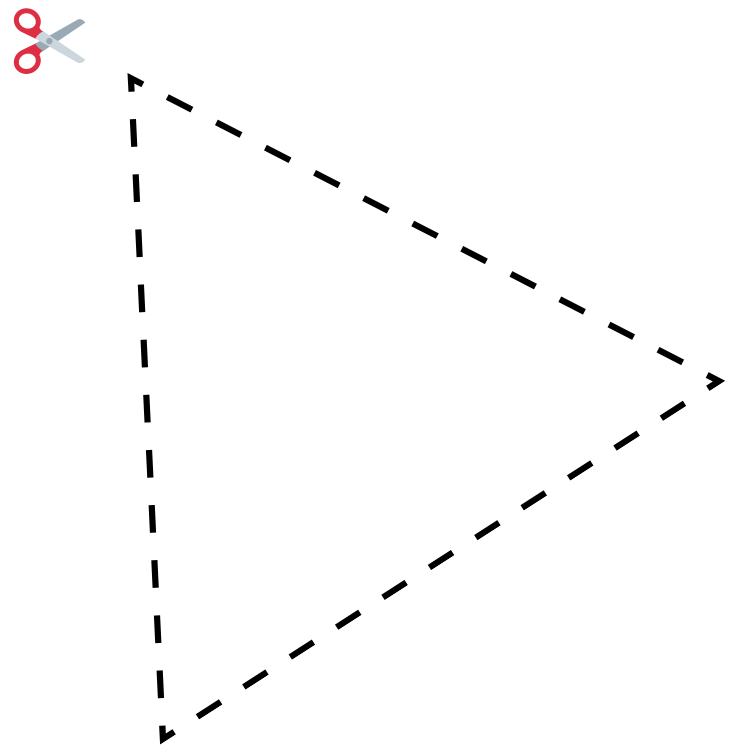

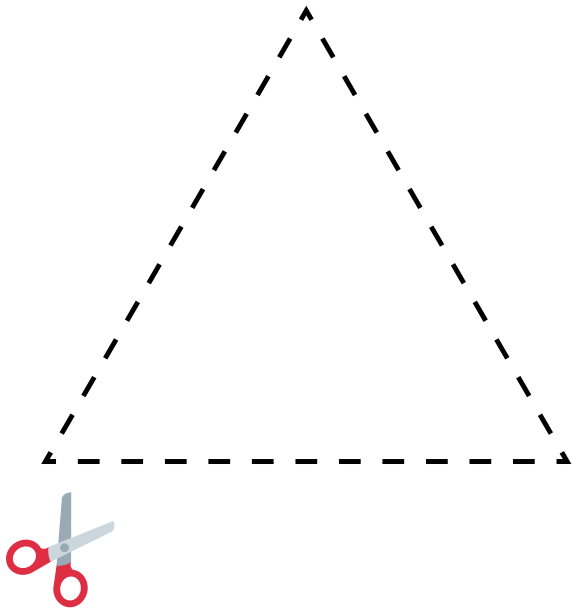

A vous d'adapter les découpages en fonction de l'âge et des progrès de votre enfant.

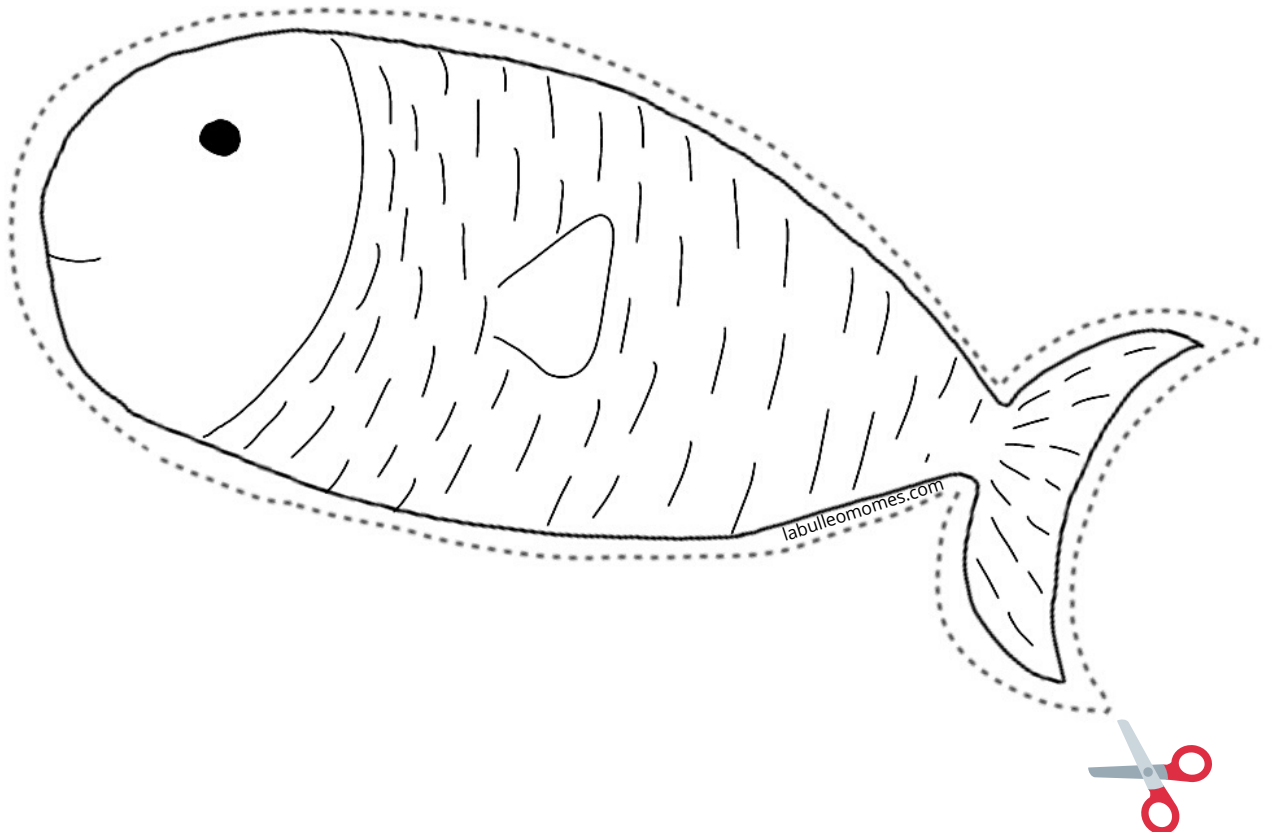

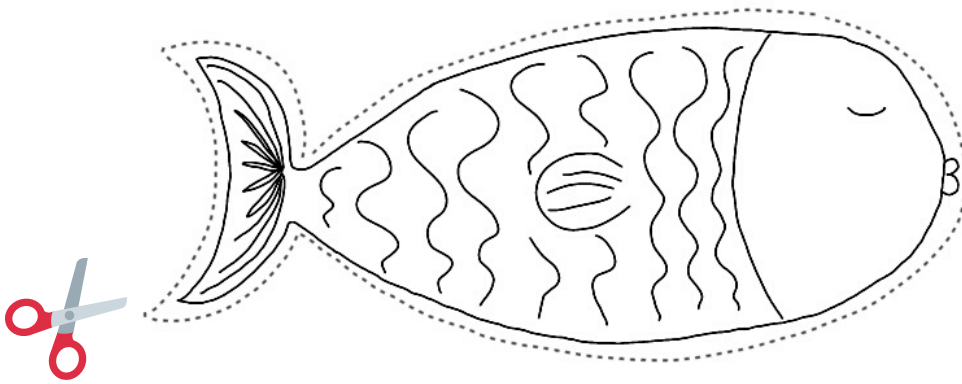

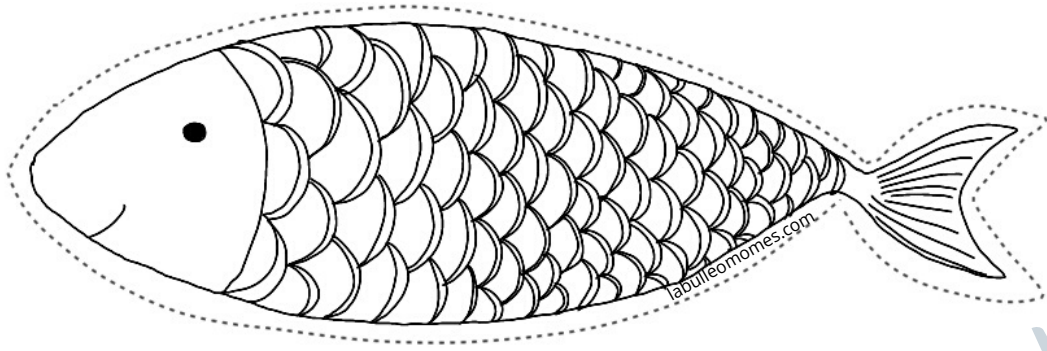

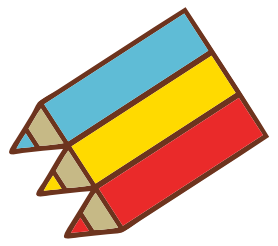

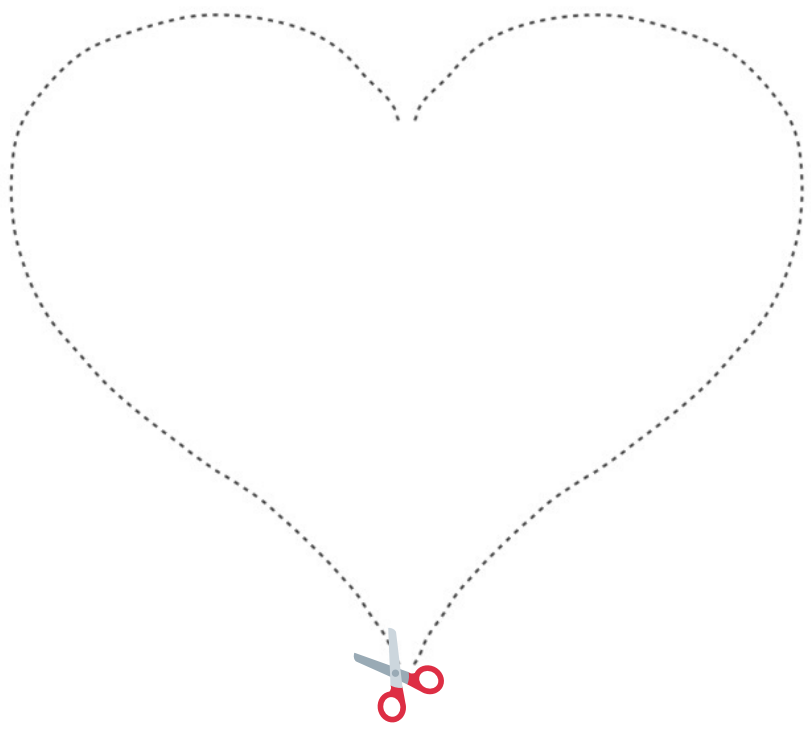

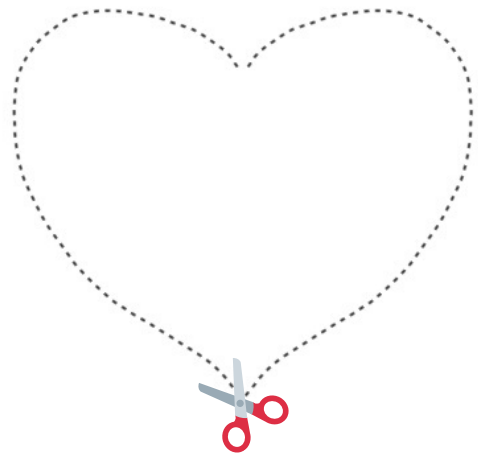

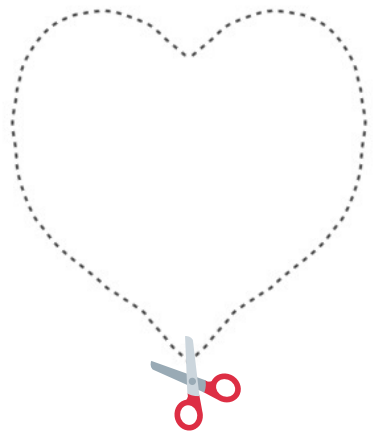

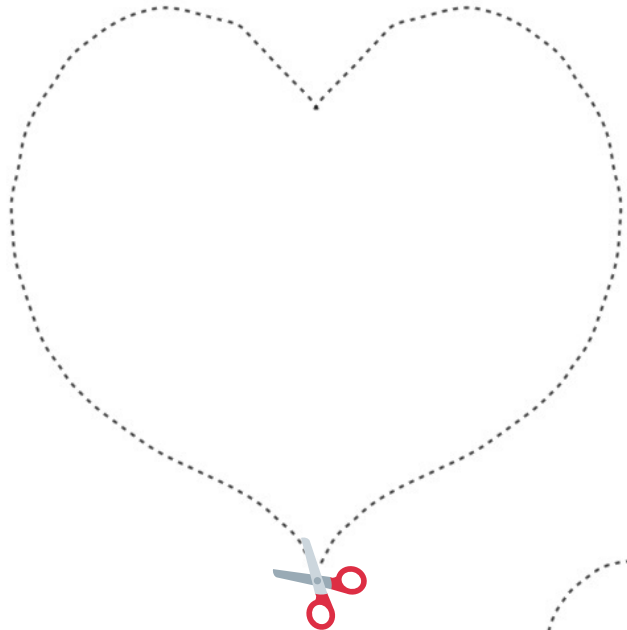

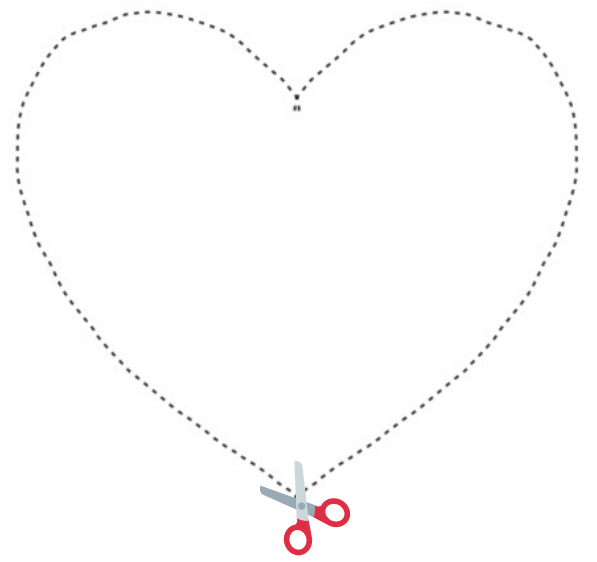

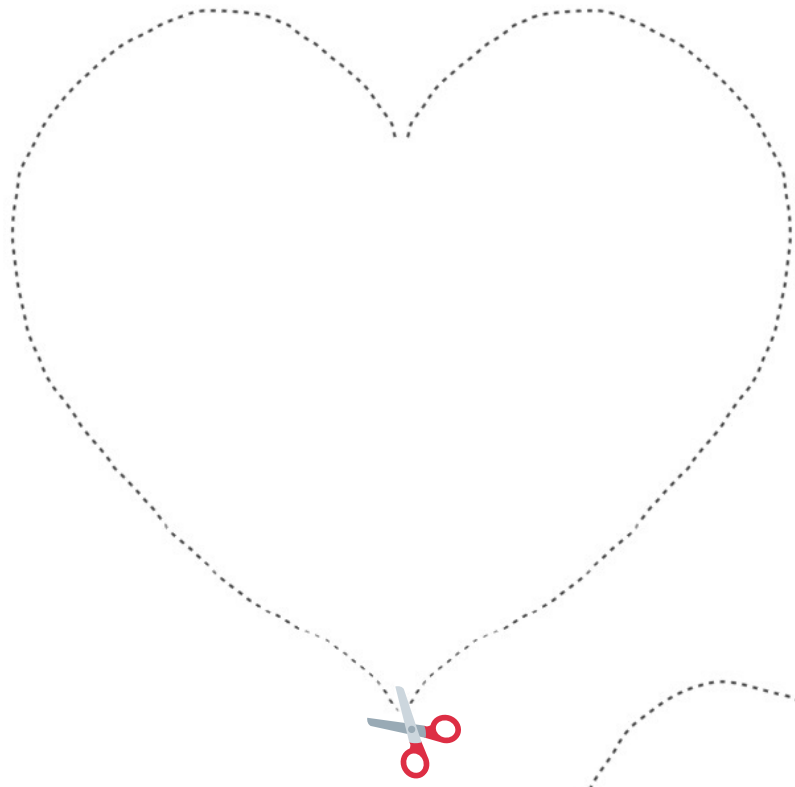

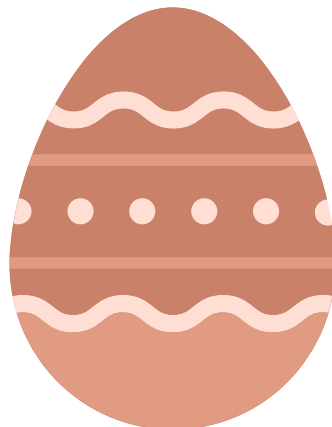

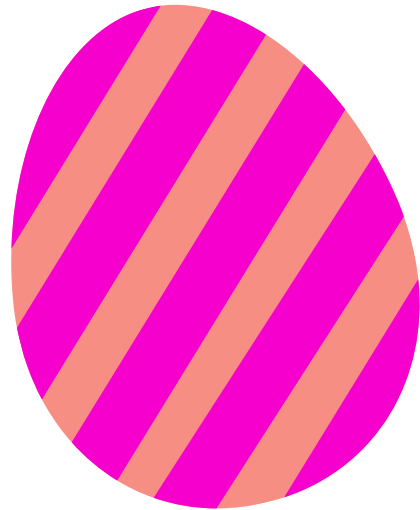

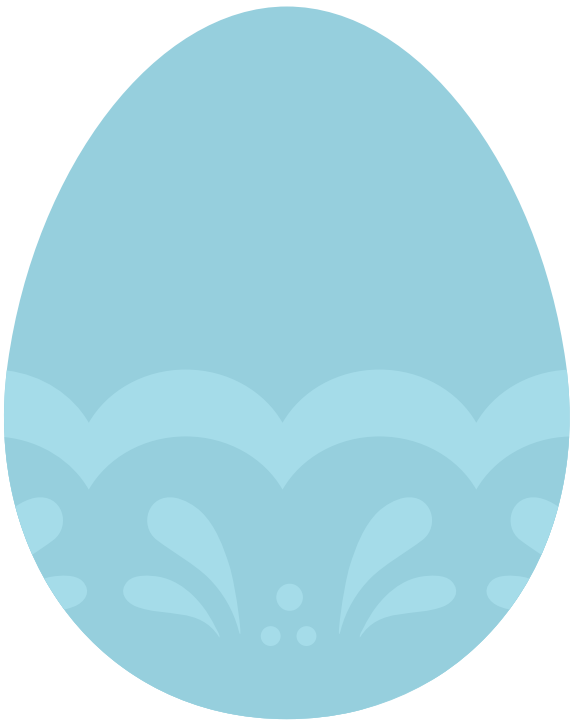

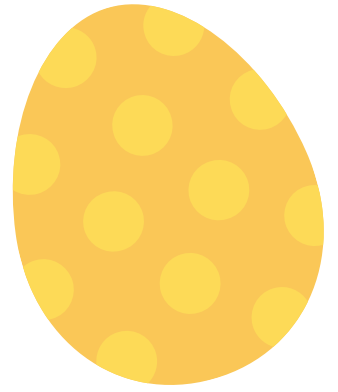

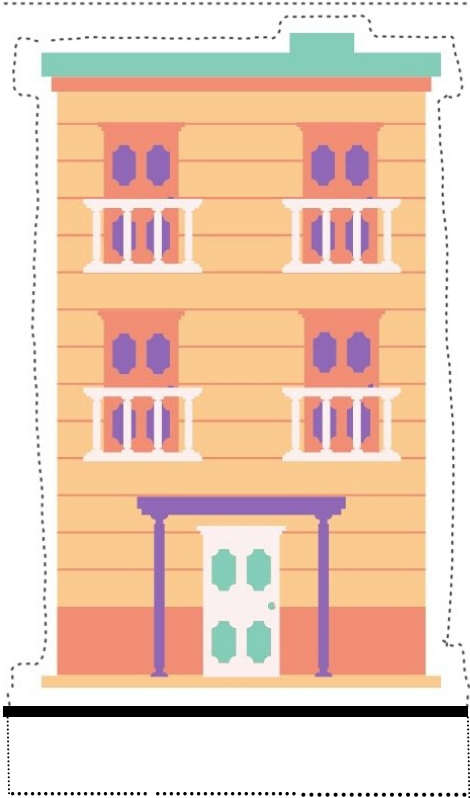

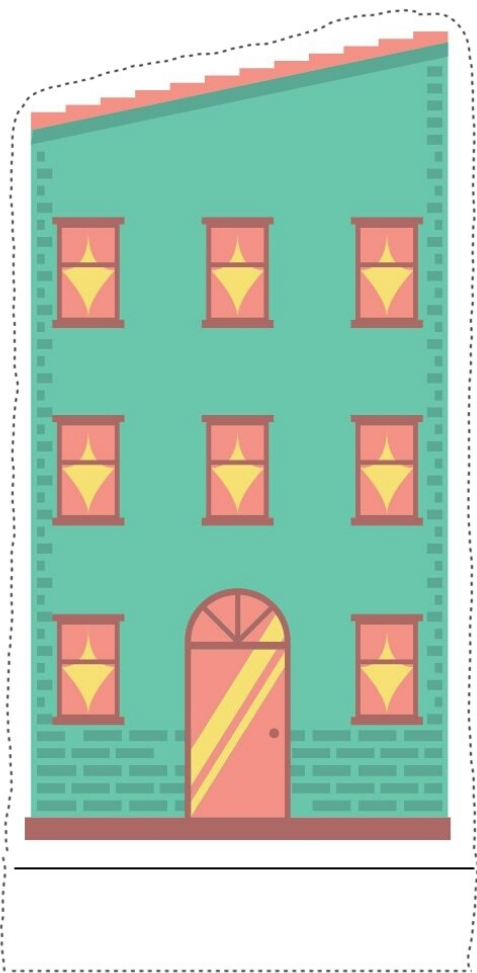

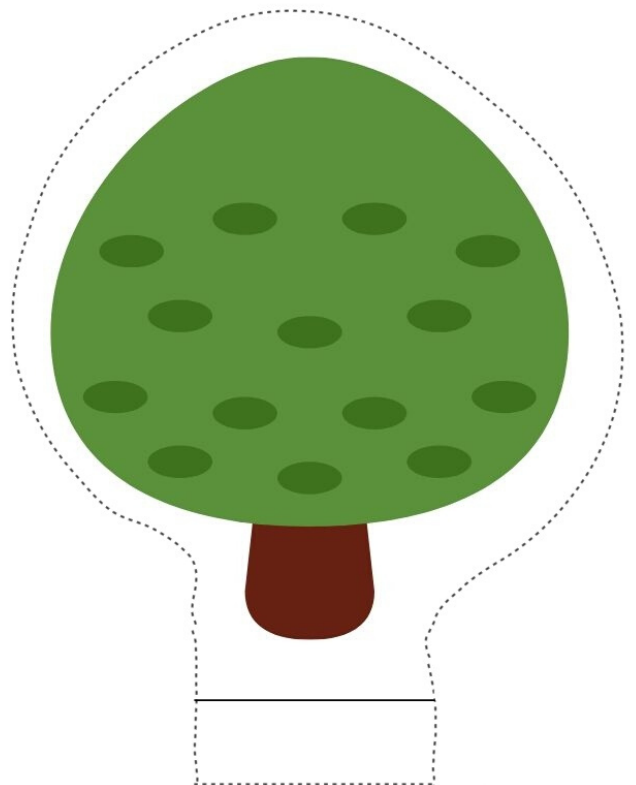

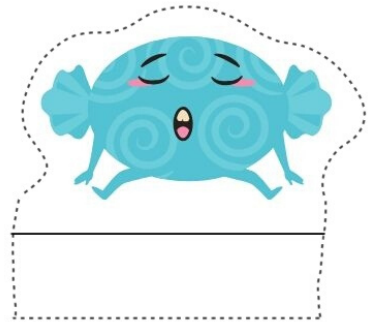

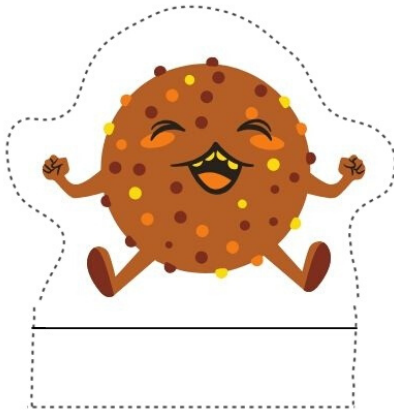

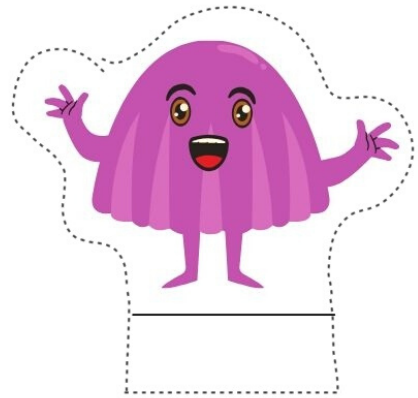

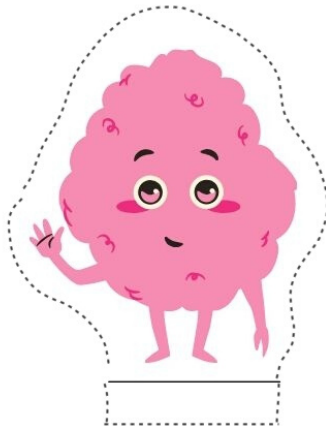

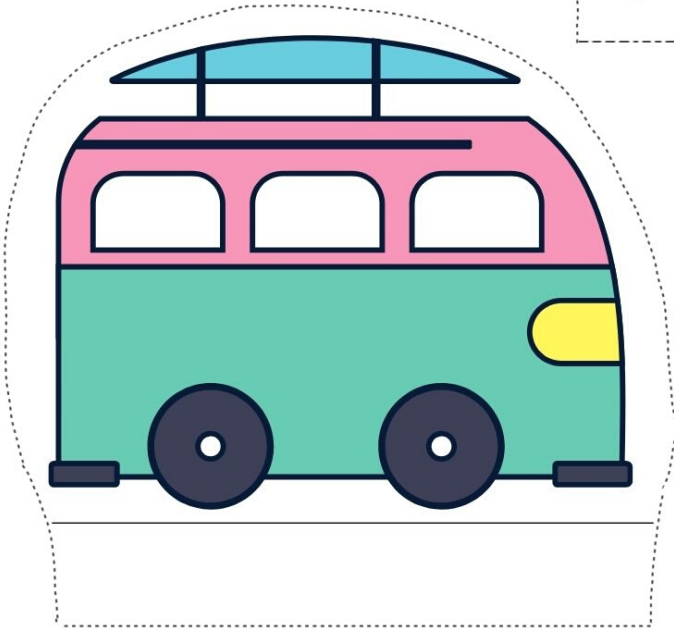

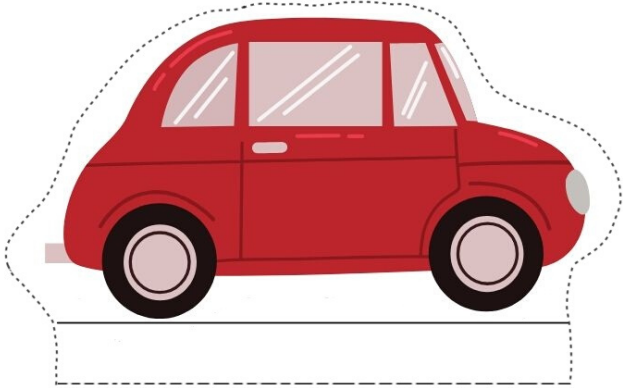

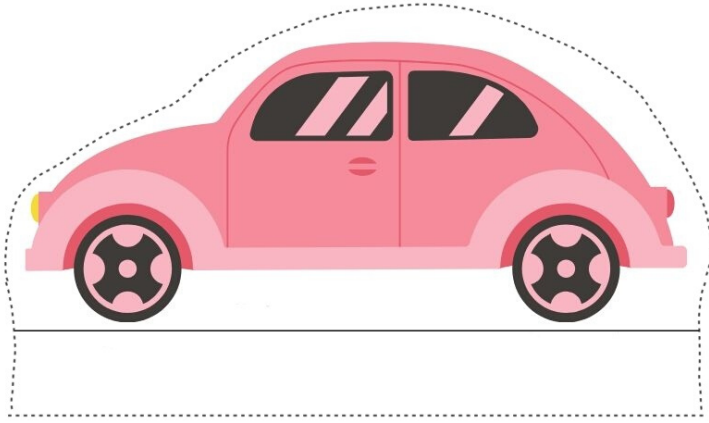

**Découpe les éléments des pages suivantes pour
créer ta ville**

 **Imprimer de préférence sur du papier type Canson pour plus de solidité**
